

TTD-G860

GSM/WCDMA **4G LTE**

- Android 7.1
- Dual Camera
- 2.8" Touch Screen
- Zello/Multi Platform App
- Cellphone Call
- SOS & GPS
- Message
- WiFi & Bluetooth
- NFC(Optional)
- Group/ Private / All Call
- Multi-Group Monitoring (Depend on Platform)
- Dual Sim Slots

2.8 Inches Touch Screen LCD

Compare with the display of normal radios, the TD-G860 featured a high-resolution 2.8-inch large touch screen display, cell phone calling, messaging, logging in account, and so on, all operations can be done on the radio directly.

2G/3G/4G National Network

Dual Camera

Front camera 2 Megapixel
Rear camera 5 Megapixel

WiFi Connectivity

Built-in Wi-Fi supports in-building communications with seamless switching to 4G/ 3G cellular networks when outside Wi-Fi range

Bluetooth 4.2

Built-in Bluetooth

GPS Position

GPS enables real-time tracking and positioning for the PTT Dispatch application

Emergency Alarms And Calling(SOS)

Emergency Alarms can be sent to other radios via the one touch programmable button Improves worker safety and emergency response time

Cell Phone Calls

SMS/MMS Message

Receive and view text messages sent from dispatcher and other TID PoC devices

NFC Function (Optional)

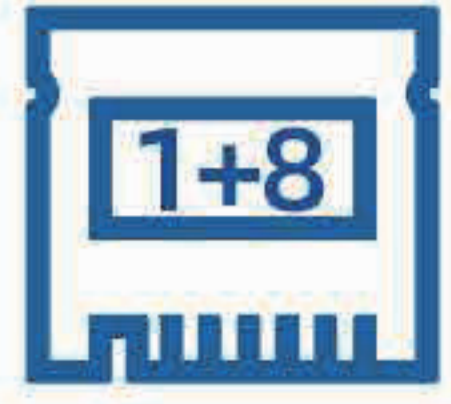

If your PTT system has integrated NFC, then you can manage checkpoints, guards, eventect on your system. Then use TD-G860 radio to identify guards by reading it's registered unique NFC tag at checkpoint. And can verify guard's duty, location, ect by reading the NFC tag located on the checkpoint.

Group/ Individual Call

Google Play (Optional)

1+8G large memory storage

**Dual SIM Slots
Nano SIM**

**Stun and revive
(Depends on if your platform support this function or not)**

Dispatcher can remotely stun (disable) or revive (return to service) if the radio is lost or stolen

Reliable & durable

IP65 rated for water and dust resistance

High quality audio

Provides high-quality digital audio performance for individual calls, group calls, and emergency calls

PC Dispatcher

Benefit from the large display, the TD-G860 is provided with the PC dispatcher function, it equals to you can use the TD-G860 as PC dispatcher, for example, checking other contacts' real time position, receiving SOS, receiving messages from others.

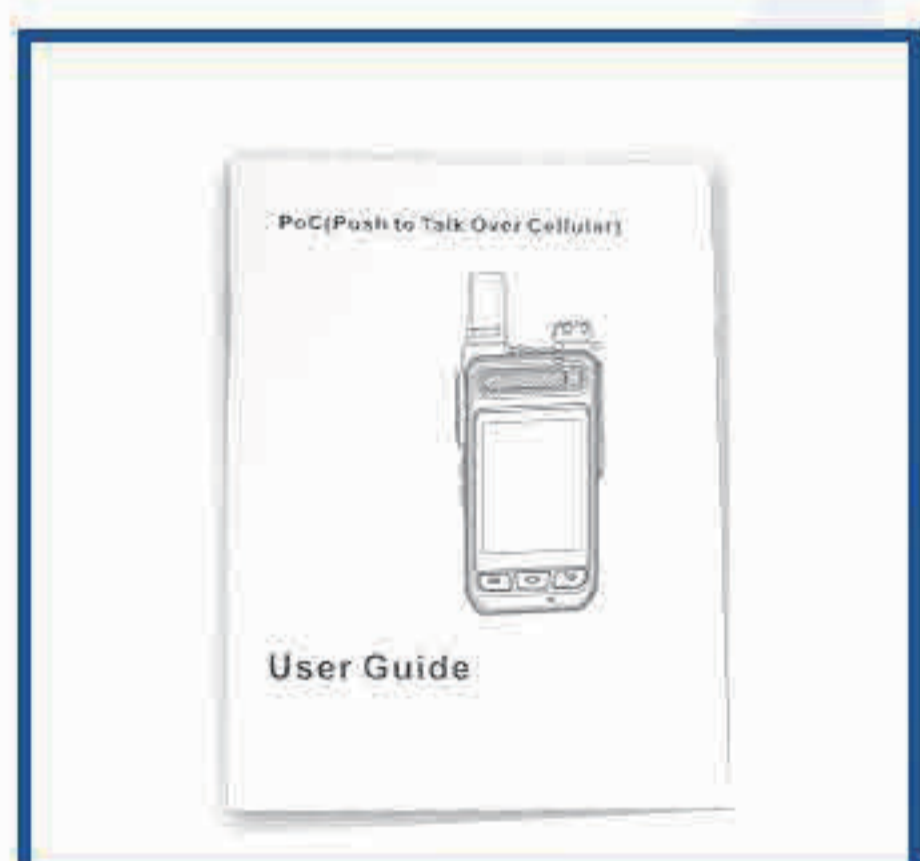

TD-G860 PoC Radio

System	Android 7.1 (System Firmware Upgrade via Micro-B)
Platform	Comlins / Zello / Walkiefleet / Real PTT / POC Star / Multi Platform APP
Network Version A	LTE FDD : B1/B3/B5/B8 LTE TDD : B38/B39/B40/B41 TD-SCDMA : B34/B39 EVDO/CDMA : BC0 WCDMA : B1/B8 GSM : 900/1800MHz
Network Version B	LTE FDD : B1/B3/B5/B7/B8/B20 LTE TDD : B38/B40/B41 WCDMA : B1/B5/B8 GSM : 850/900/1800/1900MHz
Network Version C	LTE FDD : B2/B4/B5/B7/B12/B13/B25/B26 WCDMA : B1/B2/B4/B5/B8 GSM : 850/1900MHz
Network Version D	LTE FDD : B1/B3/B5/B7/B8/B28 LTE TDD : B40 WCDMA : B1/B2/B5/B8 GSM : 850/900/1800/1900MHz
Network Version E	LTE FDD : B1/B2/B3/B5/B7/B8/B20/B28A LTE TDD : B38/B41 WCDMA : B1/B2/B5/B8 GSM : 850/900/1800/1900MHz
Module	Quectel SC20-CE/SC20-E/SC20-A/SC20-AU/SC20-EU
Chipset	Qualcomm MSM8909
WLAN	A Network Version: 2.4G/5G, 802.11 a/b/g/n B/C/D/E Network Version: 2.4G/5G, 802.11 a/b/g/n
Bluetooth	BT2.1+EDR/3.0/4.1/4.2LE
Positioning System	GPS/GLONASS/BeiDou
LTE	LTE FDD: Max 150Mbps (DL)/Max 50Mbps (UL) LTE TDD: Max 130Mbps (DL)/Max 35Mbps (UL)
UMTS	DC-HSDPA: Max 42Mbps (DL) HSUPA: Max 5.76Mbps (UL) WCDMA: Max 384Kbps (DL/UL)
Ports	Micro-B / 3.5mm Audio Jack / USB Charger Interface
Memory	RAM: 1GB / ROM: 8GB
Battery	4000mAh (Li-ion)
Dust and Water Proof	IP65
Audio Power Output	2W
Dimensions	120*64*30mm (Without Antenna)
Weight	230g (With Battery and Antenna)
Operating Voltage	3.5V~4.2V, 3.8V Typical Value
Camera	Front Camera 2 Megapixel; Rear Camera 5 Megapixel

All specifications are subject to change without notice due to continuous development.

Standard Accessories

User Manual

Battery

Desktop Charger

Power Adaptor

Hand Strip

Belt Clip

Optional Accessories

Ear-Hook Earphone

Air-tube Earphone

D-Shape Earphone

Microphone

6 Way Charger

Application Scenarios

Nearly all business sectors can use PoC radios, just require the area covered 3G/4G cellular network or WiFi Network . The TD-G860 is designed for remote workers who require reliable group communications in the long distance.

The fastest growing sector is service companies with small and medium-sized fleets .

Transportation and Logistics

Multi-site Work

Public Safety

Emergency Situation Command

Safety and Security

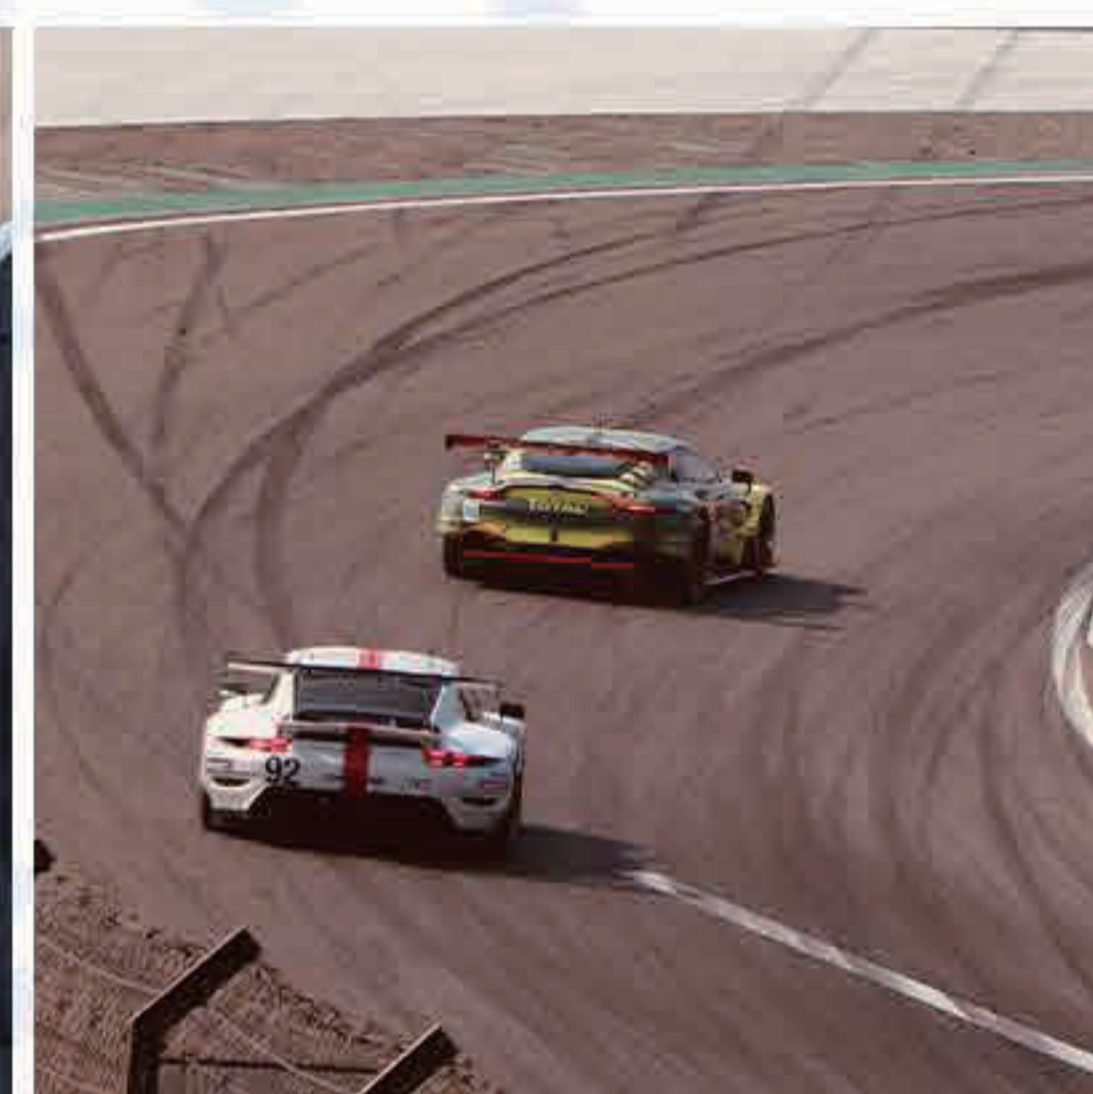

Festivals and Events

Private Ambulance

Property Management

Fleet Management

Business Service

POC radio installed the PTT application to use in various industries. It takes advantage of the wide coverage of mobile 3G/4G cellular signals or WiFi to make chain management more convenient; the perfect technology can effectively solve various problems and make communication between long distance; good hardware configuration, complete smart accessories, bring a better experience of usage.
